ZUKEN® Americas University

Welcome to the open enrollment instructor-led web-based E3.Series COM Scripting Training! This training will be provided through a series of webinars. Details on this training are below.

Pricing: $599 per person

What you will learn:
Learn about the E3.series COM interface and how you can develop scripts to interact with the data and objects within your E3.series projects. Some fundamentals of VBScript will be reviewed as well as example code shown and explained. This course will cover the introduction of developing VBScripts to interface with the E3.series COM.

Agenda:
E3.series COM
- What is the COM?
- What are the objects inside the E3.series COM?
- Connecting to the E3.series COM
VBScript Basics
- MSGBox & InputBox
- Variables
- String Functions
- Arithmetic Operators
- Comparison Operators
- Loops
- External Objects
E3.series Scripting
- Definitions of Objects & Methods in E3.series
- Application Object
- Device Object
- Sheet Object
- Symbol Object
- Export E3.series data to Excel
- Connecting to E3.series using C#

Why attend?
This class will help participants understand how to interface with the E3.series COM objects in order to retrieve, create, manipulate and report on data inside your E3.series project.

Who should attend?
Anyone that is going to be writing scripts and reports for data retrieval and data manipulation inside of your E3.series projects.

Zuken will provide:
- The software for installation if you don't already have it installed
--- You will receive an email with download links
- A temporary license file
- A reminder email one week prior to the class with download links to Training data and manuals.

The student will need:
- A computer and mouse to run the software
- Software must be installed on the student's computer prior to the start of the class.
- An internet connection
- We also recommend a headset with a microphone

Disclaimers:
- Zuken reserves the right to cancel or reschedule the training if the minimum number of students registered is not met. If the class is canceled or rescheduled refunds will be offered to registrants. Alternatively, registrants can choose to receive credits for future classes.

- A student can cancel up to 1 week prior to the start of the class and receive a full refund. If the student cancels less than 1 week in advance of the class start then a credit will be offered for future classes.

- If the student is a No show for the class, no refund will be available.

- WEB-Training restrictions: You may NOT:
    1. Share your user account and password with anyone
    2. Record any aspect of this training course
    3. Project, or share in any way, this WEB-training course to an audience

If you have any questions before the class, please feel free to contact our Zuken team.
