

Welcome to the open enrollment instructor-led web-based E3.Schematic/Cable training! This training will be provided through a series of webinars. Details on this training are below.

Pricing: \$599 per person

Course Instructor:

Alex Bitzer

alex.bitzer@zukenusa.com

What you will learn: This is a course covering the major points of E3.schematic and cable, which allows the user to design circuit and cabling diagrams for wire harnesses.

Agenda:

E3.Schematic/Cable Overview

- Overview of E3.series Modules
- E3.series User Interface
- Open, Close, and Create New Projects
- Placement of Symbols and Components
- Adding Connections and Wires
- Creation of Terminal Strips
- Working with blocks: selecting, moving, modifying blocks
- Handling connectors: selecting, moving on the block, splitting, merging
- Mating connectors, connector pin terminals
- Assigning attributes to cables, connections, components, and blocks
- Drawing cable harnesses, working with different views
- Default reports and lists
- Exporting/Importing Data

Why attend?

This class will help participants understand how to use the basic functions of the E³.series modules. You will learn both the basics of the schematic and cable functionalities of E3.series.

Who should attend?

Anyone that is going to be using E³.series. This module is great for new users and experienced users looking for a refresher.

Zuken will provide:

- The software for installation if you don't already have it installed
- You will receive an email with download links
- A temporary license file
- A reminder email one week prior to the class with download links to Training data and manuals.

The student will need:

- A computer and mouse to run the software
- Software must be installed on the student's computer prior to the start of the class.
- An internet connection
- We also recommend a headset with a microphone

Disclaimers:

- Zuken reserves the right to cancel or reschedule the training if the minimum number of students registered is not met. If the class is canceled or rescheduled refunds will be offered to registrants. Alternatively, registrants can choose to receive credits for future classes.
- A student can cancel up to 1 week prior to the start of the class and receive a full refund. If the student cancels less than 1 week in advance of the class start then a credit will be offered for future classes.
- If the student is a No show for the class, no refund will be available.
- WEB-Training restrictions: You may NOT:
 1. Share your user account and password with anyone
 2. Record any aspect of this training course
 3. Project, or share in any way, this WEB-training course to an audience

If you have any questions before the class, please feel free to contact our Zuken team.
